Workshop times	8:30 am – 4:30 pm
Instructors	Dave Lenning and other DOH Staff
Cost	None
Workshop Contents	<ul style="list-style-type: none"> • The new State Board of Health (SBOH) On-site Sewage Rules – The primary discussion will be on the impact they may/will have on on-site sewage industry professionals, homeowners, and development/real estate interests. This will include discussion on the various effective dates for different portions of the rules. • The proposed SBOH Sewage Tank Rules – While much of the proposed sewage tank chapter pertains to tank design and construction, as well as the listing process, the proposal does contain a requirement for testing all tanks on a site for water-tightness prior to use. This will be the responsibility of local professionals.
Registration	None. Seating may be limited in some locations. In those locations attendance will be on a first-come first-served basis.
Continuing Education	The workshop is being evaluated for continuing education credits by the Washington State Board of Registered Sanitarians.
Questions	Contact Dave Lenning at 360-236-3382 or Randy Aschenbrenner at 360-236-3062.
